

## Bedroom Cleaning Standards: Sunrise Village

Tools/Cleaners: Plain white vinegar (poured into a spray bottle), rubbing alcohol (poured into a spray bottle), glass cleaner, disinfecting cleaner, multi-purpose cleaner or hot soapy water, medium grade non-scratch scrubber pads or brush, toothpicks, toothbrush, toilet brush, pumice stone, broom, mop, vacuum, and rags.

Bedroom Item	Condition
<b>Bedframe</b>	Should be free of dust and debris along all side rails, posts, and under mattress.
A multi-purpose cleaner works best when cleaning the bed frames. Be sure to dry surfaces with a dry rag.	
<b>Carpet</b>	Should be completely vacuumed and spotless.
Pick up clutter from floor. Vacuum thoroughly, using the hose attachment along walls, behind the desk, dresser, and beds.	
<b>Closet Interior</b>	Shelves, drawers, and cabinets should be clean and smooth to the touch. Closet in general should be orderly. Closet rods should be free of black residue.
Remove everything from the closet and wipe down shelf, closet rod, cabinets, and walls with a warm soapy rag. Vacuum the floor using the hose attachment for the edges and corners.	
<b>Desk</b>	Should be smooth to the touch and free of sticky residue and dust.
Remove everything from the desktop and drawers. Wipe down the desktop, inside drawers, drawer tracks, and exterior surfaces (including the back) with a rag and multi-purpose cleaner. Be sure to dry surfaces with a dry rag.	
<b>Doors</b>	Should be clean, smooth, and free of fingerprints, scuff marks, and residue. Doorknobs should be shiny and free of grime.
Doors and frames should be cleaned with a rag and multi-purpose cleaner including all edges and surfaces. Use a toothbrush or toothpick to remove grime from doorknob ridges.	
<b>Light switches and Outlet Cover Plates</b>	Should be shiny and free of grime.
Wipe down with multi-purpose cleaner; use a toothbrush or toothpick to get extra grime off around the edges and letters on the switch. Metal cover plates should be polished with a rag and rubbing alcohol.	
<b>Mattress</b>	Should be fresh and free of stains or tears.
Vacuum the mattress, paying special attention to the area in between the seams. Flip the mattress end for end (over and rotated head to foot) at checkout.	

<b>Heating Vents and Wall Heaters</b>	Should be white, free of dust, and debris.
Use a multi-purpose cleaner to wipe down the top, front, and sides. Use the vacuum hose to collect any dust in the vent and underneath the radiator.	
<b>Closet and Wall Shelving</b>	Should be white and smooth to the touch.
Use a multi-purpose cleaner and a rag to wipe down the top, sides, and bottom of the shelf.	
<b>Walls</b>	Should be clean, free of grime, and sticky tack residue.
Remove all belongings from the walls and wipe down with a hot soapy rag. A scrubber pad could be used to remove any sticky residue.	
<b>Windows, Tracks, and Sills</b>	Should be clean, clear of streaks, and dust.
Window pane should be cleaned with glass cleaner or rubbing alcohol and a clean dry rag. Clean both the inside and outside of the windows pane. Window sills and tracks need to be vacuumed and cleaned with a multi-purpose cleaner and a toothbrush. Do not remove the screens.	
<b>Blinds</b>	Should be smooth to the touch, white, and free of dust.
Lower the blinds (with slats open). Wipe each slat, individually, with a hot soapy rag. Then, close the slats and use a hot soapy rag to wipe down the fronts then turn to wipe the backs of the blinds, making sure to wipe behind the strings. After you wash them, wipe them down with a dry clean rag.	

## Bathroom Cleaning Standards: Sunrise Village

Tools/Cleaners: Plain white vinegar (poured into a spray bottle), rubbing alcohol (poured into a spray bottle), glass cleaner, disinfecting cleaner, multi-purpose cleaner or hot soapy water, medium grade non-scratch scrubber pads or brush, toothpicks, toothbrush, toilet brush, pumice stone, broom, mop, vacuum, and rags.

Bathroom Item	Condition
<b>Bathtub</b>	Bathtub should be smooth to the touch, white, gleaming, and free of hair and soap-scum residue.
Using a spray bottle, spray the entire surface with white vinegar. Using the scrubbing pad or brush, scrub all surfaces of tub, paying special attention to the ring around the base and beneath the soap dish. Rinse completely with warm water.	
<b>Shower Walls</b>	Tile should be smooth to the touch, gleaming, and free of hair and soap-scum residue. The grout should be white, smooth, and free of mildew and mold.
Spray entire surface with white vinegar and scrub with a white nylon pad or soft brush. Pay special attention to the grout, using circular motions while scrubbing. If the grout is still moldy, use a Magic Eraser or use a bleach cleaner (Soft Scrub with bleach, Scrubbing Bubbles, etc.). Spray on and let soak for about 5-10 minutes; then scrub down with a toothbrush and rinse clean. Do not use any acid based cleaners.	
<b>Shower Rod</b>	Should be smooth, clean, and free of dust and mildew.
Wipe the top of the shower rod with a damp rag.	
<b>Faucets &amp; Chrome Fixtures (Bath &amp; Sink)</b>	Should be shiny, free of hard water buildup, and water spots.
Spray surface with vinegar and wipe clean with a rag. Do not use corrosive cleaners that will damage finishes. Where there is significant hard water buildup, lay a rag soaked in white vinegar over the area for a few minutes and then scrub. When clean, polish with a dry rag and rubbing alcohol.	
<b>Sink and Vanity</b>	Should be clean, smooth to the touch, and free of hard water residue.
Spray entire surface with white vinegar; wipe down with a hot and soapy rag. With stubborn spots, soak a rag with vinegar and lay over the area for a few minutes, then scrub with a scrubber pad.	
<b>Cabinets, Drawers, Medicine Cabinets, and Under Sink</b>	Should be smooth to the touch, orderly, and free of dust and grime.
Remove all belongings, and wipe shelves, drawers, and cabinet under the sink with hot, soapy water or multi-purpose cleaner. For the tops and outsides of hinges, scrub with vinegar until smooth and shiny.	

<b>Mirrors</b>	Should be shiny and free of dust and streaks.
Use rubbing alcohol and a clean dry rag to clean mirrors, with special attention to spots. Buff streaks until clear.	
<b>Toilet</b>	Should be white, gleaming, fresh smelling, and free of grime.
Spray disinfecting cleaner on outside surfaces of toilet, paying special attention to the base of the toilet. Spray cleaner (either disinfecting cleaner, white vinegar, or toilet bowl cleaner) inside toilet. Scrub until clean with a toilet brush and flush. For the ring on the inside, scrub with a pumice stone until gone.	
<b>Floor</b>	Should be shiny, smooth to the touch, free of hair, dust, and grime.
Sweep floor entirely; use a vacuum hose attachment along the edges. Mop the floor using a vinegar water solution and a mop. Be sure to get the edges of the floor. Where there is hard water residue, soak in vinegar and scrub with a scrubber brush or pad.	
<b>Door and Threshold</b>	Should be smooth, free of fingerprints, scuff marks, and residue. Doorknobs should be shiny and free of grime.
Doors and frames should be cleaned with a rag and multi-purpose cleaner including all edges and surfaces. Use toothpick to remove grime from doorknob ridges.	
<b>Fan</b>	Should be free of dust and grime. Must pass the paper test.
Wipe outside with a damp rag. There is no need to remove it from the ceiling	
<b>Light Switches and Outlet Cover Plates</b>	Should be shiny and free of grime.
Wipe down with multi-purpose cleaner. Use a toothbrush or toothpick to remove extra grime from around the edges and letters on the switch.	
<b>Walls</b>	Should be clean, white, and free of grime and sticky tack residue.
Remove all belongings from the walls and wipe down with a hot soapy rag. A scrubber pad could be used to remove any sticky residue.
